

Thank you for buying this Cacoon and giving it a home.

All our Cacoon hanging chairs are made from premium quality materials to the highest manufacturing standards. Please read these instructions carefully. The proper installation and care of your Cacoon will ensure many years of Cacooning pleasure.

what's in the box?

You'll find everything you need to hang your Cacoon in the box:

- 1 x Cacoon + 4m of hanging rope with steel carabiner (used to attach to the top of your Cacoon).
- 1 x set of eight aluminium Cacoon ring sections + 1 x Cacoon carry bag.

space needed to hang your Cacoon

Single Ø1.5m Cacoon

Ideal 2.7m (headroom) / Ø2.25m (floor space) Minimum 2.45m (headroom) / Ø1.6m (floor space)

Double Ø1.8m Cacoon

Ideal 2.8m (headroom) / Ø2.55m (floor space) Minimum 2.45m (headroom) / Ø1.9m (floor space)

how to put your Cacoon together

Tools required – NONE!

- 1 Place your Cacoon on the ground with the door spread open.
- 2 Build the inner ring by slotting together the sections piece by piece whilst feeding them through the guide loops on the inside of your Cacoon.
- 3 Once you have fed completed sections through all the loops complete the rest of the ring – you may have to use a bit of force to align and slot together the last two sections.

- 4 Pull the Cacoon over the completed ring – using your hands and fingers to lever the final part of the fabric over the ring (the design of the Cacoon relies on the ring fitting tightly – so be prepared to use a bit of force).

- 5 Using reef knots, secure the last parts of the inner ring to the horizontal seam with the available ties.

- 6 Hang your Cacoon – but before you do, check that the branch, beam or bracket is strong enough to take your weight and the weight of any friends who may be joining you.

The load limit of this Cacoon is 200kg (440lbs) NEVER EXCEED THIS LIMIT

These instructions are also available in other languages which can be downloaded from our website: www.hang-in-out.com

Warranty: All our Cacoons come with a one year warranty. Proof of purchase required.

every time you use your Cacoon you MUST

Always check that your Cacoon and it's hanging system are in good condition and show no signs of damage, wear or tear.

Always ensure that you use a suitable knot to tie off your hanging rope and that your chosen hanging point is strong enough to take at least the same weight as you intend to have in the Cacoon.

Never exceed the stated load limit or hang the Cacoon higher than just above ground level (when fully laden).

Never jump into a Cacoon or use it as a trampoline or swing – the Cacoon is designed for gentle play and relaxation.

how to use your Cacoon

- 1 Set the height of the ring off the ground to around that of a typical seat.
- 2 Sit down into your Cacoon just as you would if sitting down in a normal chair – you may find it helpful to use the internal rope as a handle.
- 3 Shift your body weight to suit your mood – remember the further back you move in your Cacoon the more reclined it will become.
- 4 To get out, put both feet firmly on the ground outside of the Cacoon and simply stand up just as you would if you were getting up from a normal chair – you may find it helpful to use the internal rope as a handle to pull up on.

Never use the ring edge as a step to get in or out of a Cacoon.

Never step out of a Cacoon one foot at a time – you will go one way while the Cacoon will go the other.

how to care for your Cacoon

Always tether your Cacoon when not in use – this is particularly important in high winds – and ensure that it cannot bang into walls, tree trunks etc as this will damage the fabric and potentially the ring too.

Washing Yes, your Cacoon can be washed in a washing machine! Cold wash. No bleach. **PUT THE RING BACK INTO YOUR CACOON AND HANG DRY – DON'T DRY WITHOUT THE RING IN PLACE – DON'T TUMBLE DRY.** And don't even think about getting the iron out – Cacoons don't like irons!

Or simply wash your Cacoon down while it's hanging – use warm, soapy water and wash off with clean water.
